Profile

I am an enthusiastic, responsible, ambitious and hard-working person. Having worked for different projects has helped me to adopt to change quickly and has made me a mature team worker. I am able to work well both in a team as well as using my own initiative. I work well under pressure and adhere to strict deadlines.

I have had the opportunity to be involved in the development of Business Development, Finance, Asset Management and HR Systems, which has allowed me to understand the full cycle of the above-mentioned departments. I have also undertaken a leadership role as team leader for an asset management project for the verification of movable and immovable assets which is where I assumed some of my leadership skills.

I am an exceptional problem solver who is able to analyze requirements and develop well-researched solutions. I have a superior capacity of understanding new concepts and applying them correctly. I am a Full Stack Software Developer who is seeking to pursue an opportunity with a growing organization that will utilize and enhance my knowledge in software development, and that will provide me with essential growth opportunities.
